REMARKS—This contract should be made out in duplicate, and one copy given to the teacher. No Board should allow a teacher to commence school until a written contract is properly signed by both parties.

WRITTEN CONTRACTS—School Boards and Teachers should make written contracts. All of the points about which differences would be likely to written contracts, such as the amount of salary, length of time, etc., should be plainly set forth in such agreements. The language of the contract must express the exact intention of the parties; for while the rule of the law is to give effect to the intention, yet if the language is unequivocal, it will govern, although exact intention of the parties.—Benjamin vs. McConnell, 4 Ill. (Gilman), 536. Bateman's Decisions, page 155.

"On or before the seventh day of July, annually, the clerk of each board of directors shall report to the township treasurer having the custody of the funds of such district, such statistics and other information in relation to the schools of his respective district as the township treasurer is required to embody in his report to the county superintendent, and the particular statistics to be so reported shall be determined and designated by the State Superintendent of Public Instruction, or by the county superintendent." [Art. V., 22, School Law.]

Persons unable to Read and Write.—The blank form for the names, etc., of all persons in the district between the ages of 12 and 21 years who are unable to read and write, must be carefully and correctly filled up. Directors are imperatively required by law, to make full report of all such persons in their respective districts, and township treasurers should receive no report which does not contain said statistics of illiteracy.

The statistical reports of school officers are valuable only as they are accurate and truthful.

WHEN DUE.—This report must be completed and handed to the township treasurer on or before the seventh day of July in each year.

NOTES.

CENSUS.—"Take the Census accurately. If your District lies in two or more Townships, you must report to each Treasurer the correct number of Minors, and of Persons of School Age living in that part of your District which lies in his township. If your District lies in two Counties, you must show in your Report how many live in each County."

SCHOOL STATISTICS.—Report the items under this heading to the Treasurer in the Township and County in which your School House stands, and to him only.

"Call that School a Graded School in which the lowest or lower grades of pupils in a District are taught by one Teacher, and the higher by another or other Teachers. SCHOOL STATISTICS.—Report the items under this heading to the Treasurer in the Township and County in which your School House stands, and to him only.

"Call that School a Graded School in which the lowest or lower grades of pupils in a District are taught by one Teacher, and the higher by another or other Teachers. Call that School an Ungraded School in which pupils of all grades are taught by the same Teacher. It should be remembered that the number of schools is the same as the number of buildings, regardless of the number of teachers employed in any building."

The number of Months of School is the sum of the months school was in session in each separate building, thus:

"If you have one Graded and one Ungraded School in your District, and each was in session eight months, the total of this item is sixteen."

"The report of Enrollment should include every pupil who has attended School during the year."

"The number of Months taught is the aggregate number of months taught by all the Teachers."

Report the items relating to Libraries and Private Schools to one Treasurer only, the same as the other school statistics.

FINANCIAL STATISTICS.—"Report with care, and to only one Treasurer, except that if your District is divided by Township or County lines, the law requires you to report the amount of Tax Levy upon each part."

STATISTICS OF ILLITERACY.—"If your District lies in two or more Townships, or in two or more Counties, observe the same directions as are given for the report of the Census."

Schedules.—" All Schedules for the year—separate and regular—not filed before the seventh day of July, must be filed that day."
